REPORT

ON THE

ADMINISTRATION

OF THE

DHOLPUR STATE,

FOR THE

YEAR 1897-98 (SAMBAT 1954.)

PREPARED BY

BISHEN SAROOP,

RAI BAHADUR,

DEWAN OF DHOLPUR.

AJMERE:

PRINTED AT THE RAJPUTANA MISSION PRESS.

1898.

RAJASTHAN UNIVERSITY

No. 798 of 1898.

FROM

THE DEWAN OF DHOLPUR.

To

THE POLITICAL AGENT,

EASTERN STATES, RAJPUTANA, BHURTPORE.

Dated Dholpur, the 6th July 1898.

SIR,

I have the honor to forward the Annual Administration Report of the Dholpur State, for the year ending 31st March 1898.

I have the honor to be,

Sir,

Your most obedient servant,

BISHEN SAROOP,

RAI BAHADUR,

Dewan of Dholpur.

ADMINISTRATION REPORT

OF THE

Dholpur State for the year 1897-98 (Sambat 1954).

RAINFALL.

1. The average fall of rain during the year was good.

2. The rainfall recorded in the Dholpur city and in the Tehsils was 29 inches and 27½ cents, which is nearly the average fall of an ordinary year.

3. The fall in about the middle of May was slight, but the monsoons set in fairly on the 13th of June 1897, and continued to rain opportunely afterwards.

4. The rainfall for the Kharif was copious and timely, but the winter rains although enough were rather late.

5. Records of rainfall are taken in six places in the State as under.

Comparative Statement of rainfall, for the years 1894-95, 1896-97 and 1897-98 : —

Name of Rain Gauge Stations.	1894-95.	1896-97.	1897-98.
1. Gird	32·38	16·59	34·20
2. Bari	33·12	14·38	27·56
3. Baseri	29·38	9·12	23·24
4. Kolari	34·40	9·65	30·86
5. Rajakhera	33·08	12 76	33·9
6. Sir Mathra	23·47	15·90	26·71
Total ...	183·83	78·50	175 66
Average ...	30·63	13·8½	29·27½

PRICES CURRENT.

1. The staple food of the people of this country consists chiefly of Wheat, Barley, Jowar, Bajra, Arhar, Mung and Gram.

The production of both the spring and autumn crops was good, but the prices of food grains remained considerably high throughout the greater part of the year.

Jowar and Bajra grew in abundance, but when these were harvested the rates of sale of other grains were so considerably high that the greater portion of the population began to use these grains. On account of large consumption therefore the selling price of Jowar and Bajra also did not get low in proportion to their production.

2. The retail prices of grain given in Appendix B will show the high rates these grains were sold at till the month of October, and of the other grains until the end of March 1898.

KHARIF.

1. The production of the Kharif was on the whole satisfactory.

Bajra, Jowar, Cotton, Mung, Moth, Sarson, etc., are chiefly cultivated in the Kharif in this State.

Of these the production of Bajra was the most satisfactory, and the outturn was nearly cent. per cent.

The production of the other grains was not so good, but was, on the whole, fair.

2. Grass and fodder also grew in abundance.

RABI.

1. The production of the Rabi was also good, but was poorer than the Kharif.

There is no doubt that the irrigation of the Rabi depends much on water from the tanks and wells, but timely winter rains tend a great deal in bringing the crop to a successful maturity.

2. The winter rains this year were good and copious, but were so late that the Rabi for the time appeared to be utterly failing, and instead of the middle of January the winter rains commenced on the 8th of February.

3. The consequence of this delay was that with the exception of gram the production of other grains was below the average.

FAMINE RELIEF.

1. The year under report was an ordinarily good year, but as it succeeded a very critical year of scarcity, Relief Works had to be continued for most part of the year until the rates of sale of grain were cheaper.

Relief labour employed on Reproductive Public Works was stopped in the month of September 1897, but Poor Houses were retained till the 24th of January 1898.

2. Mr. A. N. Thorpe, who was placed in charge of Relief Works ill, and was obliged subsequently to go to England to recruit his health. Mr. E J. H. Hinze has since then worked in his place.

To complete the masonry portion of the Reproductive Public Works which still remains to be done, and to prepare channels, etc., required to carry water into the tanks, the sum of Rs. 26,000 has been estimated, and it has been proposed that Mr. Hinze will, for the present, take up this work.

3. The State proposed to spend Rs. 1,50,000 on Relief Works. Of this, as shown in Appendix C of this report, the sum of Rs. 134,561-14-0 were spent up to February 1898.

4. The cost of preparation and improvement of the Kaiser Bagh Palace, amounting to Rs. 20,858-15-9 has been paid by His Highness The Maharaj Rana from his private purse, so that the net expenses of Famine Relief have only been Rs. 1,13,702-14-3.

HEALTH.

1. The general health was not good. There were no plague cases, but malarious fever prevailed throughout the State for most part of the year, and cough and cold raged more than ordinarily.

2. Solitary cases of cholera broke out in the City of Dholpur during the month of July. As soon as the disease had made its appearance every precautions were taken not to let it spread further. All the houses and streets were cleaned, and water of all the wells used for drinking purposes were disinfected and cleared by potash, lime, etc.

The disease lasted for one month and five days, during which out of 134 cases 50 proved fatal.

3. Malarious fever showed itself in the beginning of the year, and continued long, but the severity of the disease lasted during the months of September and October only.

4. To ward off the introduction of plague the following precautionary measures adopted last year were continued.

1st.—The Tehsildars and other State officials were directed to keep within their Jurisdiction a strict watch on general sanitation, and to report immediately cases of plague or of any other epidemic.

2nd.—Native doctors were deputed to attend to passengers alighting at the Railway Stations within the State, and to take any plague patients they came across to the temporary huts which were prepared for the accommodation of such patients at a considerable distance from the Railway Station.

BOUNDARY DISPUTES

1. There were no boundary disputes between the Dholpur and other adjoining States during the year.

SALT AGREEMENT.

1. The conditions of agreement contracted between the Dholpur Durbar and the British Government regarding abolition of salt manufacture were duly observed from both sides.

All the salt-bearing localities were carefully guarded against illicit manufacture by the Tehsildars of the State and by the officer in charge of the Customs Department

An Inspector of the British Salt-Department, Agra, came and inspected all the salt-bearing localities, but no cases of illicit manufacture were discovered.

In June 1897 some famine-stricken people of Kolari attempted to smuggle salt for their daily use, but were at once detected and convicted.

2. Rupees sixty thousand, on account of compensation paid annually by Government for abolition of salt manufacture in Dholpur, have been received by the Durbar.

LAND REVENUE.

1. There are six Districts in the State, *viz.* :—

(1.) Gird or the Pergana immediately surrounding the capital.

(2.) Mania.

(3.) Bari.

(4.) Baseri.

(5.) Kolari.

(6.) Rajakhera.

Gird and Mania form one Tehsil, the head-quarters being at Dholpur.

2. The current Revenue demand for the year is Rs. 8,15,290, and the arrears of Revenue due for last year amounts to Rs. 3,55,900.

Of this it was estimated that Rs. 6,73,000 of the current Revenue, and Rs. 1,50,000 of the arrears, or in all Rs. 8,23,000 will be realised during the year.

It was impossible to collect the whole of arrears in one single year. It was therefore arranged to realise Rs. 1,50,000 this year, and the remainder in two successive years.

3. As the financial year ends in May, the actual amount that will be realised by that time cannot be ascertained with accuracy now. From the outturn of the spring and autumn crops, and from the realisation of Land Revenue made up to 31st March 1898, it is, however, anticipated that about Rs. 36,000 in excess of the amount estimated for the current year will be realised.

LOAN.

1. To meet the cost of the severe scarcity it was proposed last year to borrow six lacs of rupees more from the Seths, but expenses of all the Departments were so well curtailed, and only such expenses incurred as were found indispensibly necessary, that only four lacs of rupees were found enough to tide the year over, and only this much was drawn from the Seths.

2. The sixty thousand rupees budgetted for liquidation of the Loan were repaid to the Treasurers during the year, so that the liability of the State was increased by Rs. 3,40,000 only.

3. The interest due to the Treasurers was paid in full during the year.

CUSTOMS.

1. There has been no change in this department during the year.

There is no Octroi in Dholpur. Sales of liquor and of intoxicating drugs have, as usual, been given out on contract.

2. The receipts estimated for the year ending 31st May 1897 were Rs. 28,469-8-0.

The actuals were Rs. 22,940-2-9, so that the actuals were less than the estimate by Rs. 5,529-4-3. The decrease was due to the year of scarcity.

The receipts estimated for the year under report are Rs. 29,085-8-0.

SARAD FAIR.

1. The Sarad Fair was held in the town of Dholpur as usual.

As regards rainfall and production of crop the year under report was decidedly better than the one preceding it, but at the time this Fair was held fever was so violently raging all over the country that people could not leave their homes. The number of shops brought into the Fair was consequently considerably less than last year, and the articles brought for sale were also less.

The number of animals brought into the Fair for sale, however, exceeded last year's number by 2,970.

2. Horses for remount purposes were not brought into the Fair at all.

3. 11,737 cattle were offered for sale. Of these 9,088 were sold for Rs. 1,30,928-0-0, against Rs. 65,940-12-0 of last year.

4. The duty on sale of cattle during the year amounted to Rs. 2,920-6-3.

The following statement shows the result of the Fair :—

Details.	Last year.	Current year.	Decrease.	Increase.
No. of shops.... ...	823	566	257	...
Cattle offered for sale	8,767	11,737	...	2,970
Cattle sold	6,416	9,088	...	2,672
Cattle sold for ...	Rs. 65,940-12	Rs. 1,30,928-0	...	Rs. 64,987-4-0
Duty on sale of cattle	Rs. 1,713-2	Rs. 2,920-6-3	...	Rs. 1,207-4-3

DISPENSARIES AND VACCINATION.

1. There are four Dispensaries in the Dholpur State, of which one is established in the Jail for the exclusive use of prisoners.

2. 25,570 patients were treated during the year, showing an increase of 1879 patients on last year's returns.

The general working of the Dispensaries during the year was satisfactory.

3. The number of Vaccination operations performed during the year was 5,866, being 407 less than that of the previous year. Of these 5,601 were successful and 265 only unsuccessful.

4. The cost of the Dispensaries and Vaccination amounted to Rs. 5,782-12-0, which exceeds last year's expenses by Rs. 341-2-3.

5. The five additional Dispensaries opened for Famine labourers a- poorhouse paupers last year were retained up to January 1898, which on the abolition of poorhouses these were closed.

JAIL.

1. The Jail is situated in Purani Chhaoni, about two miles om the site of the present town of Dholpur.

It is a large old-fashioned house, but is not commodious.

There is another prison house in the city of Dholpur near the walli, where under-trial prisoners are kept. ot-

2. There were 82 prisoners in the Jail at the commencement of year, 158 prisoners were admitted, making a total of 240. he

Of these 141 were released, 17 died, and 82 prisoner remained in Jail under sentence on 31st March 1898.

Four years	7
Five years	1
Six years...	2
Seven years	9
Eight years	7
Nine years	1
Eleven years	2
Fourteen years	1
For life	3
Total ...	82

There are 16 prison wards and 127 raised beds for prisoners in the Jail to lie upon.

The average number of prisoners per day in the Jail was 98·78.

There are separate wards for male and female prisoners.

The Darogha and the Doctor in charge look after the diet of prisoners.

3. Weaving of Blankets, Newar and Dari have been introduced in the Jail during the year.

The stuff prepared, although only first attempts of prisoners, is fair. Efforts are being made to improve the manufacture, and it is hoped that after some time it will become remunerative.

Prisoners sentenced to imprisonments for small periods are engaged in digging earth, repair of roads, etc.

5. Each prisoner gets per day :—

Wheat...	... ½ Seer.
Gram	... ¼ „
Dal	... ⅛ „
Salt	... 1 Tola.
Red pepper	... 1
Firewood	... ½ Seer.

The prisoners cultivate vegetables for themselves inside the prison compound. Half-a-seer of this vegetable is given to each prisoner thrice a week. On these days the Dal is not given.

About six tolahs ghi is also given to each prisoner per month.

The prisoners cook for themselves in separate ovens outside the prison wards within the prison compound.

6. All the prisoners are clothed uniformly. Two dhoties, one coat, one cap, and two blankets for the winter season are given to each male prisoner. A tát is given for them to lie upon.

One lahnga, one dupatta, one kurta and two blankets are given to each female prisoner, and they get a tát to lie upon.

The conservancy of the Jail has been good.

7. 273 prisoners were medically treated during the year, of whom 250 were cured, 22 died, and one remained under treatment at the close of the year.

The principal diseases with which the prisoners suffered were fever, diarrhœa, and cholera.

Fever of a stronger type than usual broke out in the Jail during the months of September and October.

Cholera of a mild type also broke out in the month of August. Such patients were immediately segregated to a house fixed for the purpose at a sufficient distance from the Jail where every care was taken of them. Precautions were also taken not to let the disease spread elsewhere.

Of the 22 prisoners who died in the Jail, 4 died of diarrhœa, one of dysentry, 4 of cholera, 3 of diseases in the respiratory organs, 1 of disease in the lungs, and 9 of other diseases.

COURT OF JUSTICE.

1. There are three Courts of Justice in the Dholpur State.

2. The Diwan's Court.—Next to the Ijlas khas or Court of His Highness The Maharaj Rana the Court of the Diwan is the highest tribunal of Justice.

In addition to appeals from Lower Courts in Civil and Criminal Cases all summary Revenue suits between the zemindars and tenants, and all cases of rights of ownership are tried and disposed of by the Diwan.

3. The Nazim's Court.—Immediately under the Diwan is the Court of the Nazim. The jurisdiction of this officer extends over the whole State. He has under him the Jail, the City Kotwalli, and all the Police Stations that lie within the Dholpur Territory.

He is a Civil as well as a Criminal Judge.

In Criminal Cases the Nazim is entrusted with first grade magisterial powers.

In Civil Suits he has powers to hear claims up to Rs. 2,000.

4. TEHSILDARS.—The third Court of Justice is the Court of the Tehsildars, who, in addition to their ordinary Revenue work have to discharge Civil and Criminal duties.

The Tehsildars are vested with third grade magisterial powers, and are competent to try Civil Suits up to Rs. 300.

Appeals of cases decided in the Tehsil Courts are made in the Court of the Nazim, and thence to the Court of the Diwan.

5. The Court of the Settlement Department is under the direct supervision of the Diwan.

Cases of partition and mutation, etc., are all disposed of here, and the Patwari records and Jamabandi papers are checked in this office.

CIVIL SUITS.

1. The number of suits pending since last year was 98. The number of original suits instituted during the year was 260, making a total of 358. Of these, 259 cases were decided, and 99 remained pending at the close of the year.

The value of property brought under litigation during the year amounted to Rs. 30,689-6-6.

Comparing the balance of original Civil Cuits pending last year with that at the close of the current year, there is an increase of one in number, and of Rs. 2,223-9-0 in the amount of property under litigation.

EXECUTION OF DECREES.

1. There was a balance of 97 cases pending since last year, 139 cases for Execution of Decree were filed during the year, making a total of 236.

These were disposed of as under, 148 remaining pending at the close of the year :—

Decided	...	...	...	...	55
By mutual agreement	...	..		...	13
Dismissed	...	..	...	...	20
				Total ...	88

Of Rs. 25,174-9-0 applied for in execution of decrees, Rs. 4,560-9-10 only were realised and paid to decree holders.

REVENUE CASES.

1. 327 Revenue Cases were pending since last year, 2,273 cases were filed during the year, making a total of 2,600.

Of these 2,288 were disposed of as under, and 312 cases remained pending at the close of the year.

Decided by Court	1,663
Do. by mutual agreement	105
Do. by Punchayet	33
Dismissed	487
Total ...	2,288

CRIMINAL CASES.

1. Eight hundred and eleven cases came before the Criminal Courts during the year, of which 19 cases were pending from last year.

Of these 796 were disposed of, and 15 cases remained pending at the close of the year.

Detail of cases filed and disposed of in the Criminal Courts of the State is given in Statement annexed.

2. Of the 792 cases instituted during the year, 20 cases, as under, are debitable to the more heinous class of offences.

MURDER.—There were two cases of Murder.

CULPABLE HOMICIDE.—There were two cases of Culpable Homicide.

DACOITY.—There was only one case of Dacoity.

In the month of July, when famine was raging in Dholpur, the house of Khubi Lodha, resident of Masudpura, was attacked at night by a number of dacoits, and grain of the value of Rs. 41-9-3 plundered. No trace of the perpetrators of this Dacoity was found.

GRIEVOUS HURT.—There were in all seven cases of Grievous Hurt, six of which were of Grievous Hurt alone, and one of Grievous Hurt and Riot.

In the first six cases 13 criminals were supposed to be concerned, of whom 9 were convicted and 4 released.

In the seventh case of Riot and Grievous Hurt 9 criminals were supposed to be concerned, four of whom were convicted and five released.

ROBBERY.—There were six cases of Robbery, in which thirteen criminals were supposed to be concerned. Of these eight were arrested and convicted.

RAPE.—There were two cases of Rape. Criminals in both cases have been arrested and proved to be guilty. Final orders on these cases have not been passed yet.

CATTLE THEFT.

1. There were in all 106 cases of cattle theft during the year.

The value of cattle stolen amounted to Rs. 3,177-13-0, of which cattle to the value of Rs. 2,190-11-6 were recovered and made over to the owners.

One hundred and ninety-five criminals were supposed to be concerned in these cattle-lifting cases, of whom 124 only were arrested.

Of the criminals arrested, 94 were convicted, 24 were released, 4 were not found guilty, and 2 died of natural death.

2. It has been proposed that a register of cattle should be kept in all villages. In this register the total number of cattle in each village will be entered, and entries of subsequent purchases and sales will also be made.

This system will, it is hoped, not only act as a general check on cattle-lifting, but facilitate future arrests.

THAGGI AND DACOITY.

1. In the beginning of the year 1897, it was brought to the notice of the Durbar that certain Gujars living in the villages of—

1. Moghulpura,
2. Kudanna,
3. Kuakhera,
4. Atrajpura,
5. Karidhar,
6. Bhutpura,

and others situated on the River Chambal, and within the borders of the Dholpur State, have from time to time, in conjunction with bad characters of neighbouring territory, been systematically committing dacoities within and without the Dholpur State, and thereby bringing the name of this State into disrepute.

To put a stop to these raids, and to cause the apprehension of such of the bad characters as lived in this State, the Political Agent, Eastern States, Rajputana, the Assistant General Superintendent of the Thaggi and Dacoity, and Inspector Abdus Salam of the Thaggi Department were consulted, and then the following arrangements were made by the Durbar :—

1st. It was notified that persons who will bring in such reliable information as will lead to the arrest of cases of dacoity, etc., committed within the last three years, the arrest of the persons concerned, and the recovery of the property stolen, will in each case be suitably rewarded.

2. A reward of Rs. 1,000 moreover was immediately offered for the arrest of ten dacoits concerned in cases of dacoity committed in the States of Gwalior and Bhupal.

2nd. At a fort some two miles distant from Kudanna, and within more or less striking distance from the other villages in question, a force of fifty to sixty men was posted, and roads were made to each village from this fort.

3rd. The men posted in the fort were ordered to do regular patrol duty in the direction of these villages and by the banks of the Chambal. These men were also to check the presence of men at their houses, and to report any for whose absence satisfactory reasons were not forthcoming.

4th. State officers were specially deputed to co-operate with Abdus Salam, Inspector of the Thaggi and Dacoity Department, and to prepare a list of the male inhabitants of the villages and hamlets considered desirable to keep under special control.

5th. The towers of refuge existing in the villages of—

1. Moghalpura,
2. Kudanna,
3. Kuakhera, and
4. Atrajpura,

were destroyed.

The destruction of the towers was purposely limited to the above villages, which were more infested by bad characters, as a mark of disgrace and sign of warning to others.

This step was taken with a view to facilitate future arrests, and to have a salutary moral effect on all bad characters.

3. The result of these arrangements was most satisfactory, reflecting credit both to the officials and to the subordinates engaged in the work.

4. Seven cases of outside dacoities were taken up, in all of which most of the criminals were apprehended and made over to the States where the dacoities were committed.

5. The arrangements noted above have been continued, and every effort is being made to cause the apprehension of dacoits not arrested yet.

CRIMINALS PENDING UNDER TRIAL.

1. The number of criminals pending under trial during the current year is 24. The number pending under trial last year was 83, so that the number of criminals pending under trial during the current year is less than last year's number by 59.

Detail of criminals under trial at the close of the year :—

1.	Court of the Diwan	... 0
2.	Adalat Foujdari	... 0
3.	Tehsil Courts...	... 24
	Total	... 24

TALBANA.

1. The receipts under this head have only been Rs. 90-13-0, which is less than last year by Rs. 42-0-6. This is due to decrease in number of Civil and Revenue Cases on account of scarcity last year, and of its effects for most part of the current year.

The receipts have been as under :—

In Civil Cases	...	Rs.	62 3 6
In Revenue Cases... ...	...	„	18 0 0
In Execution of Decree ..	...	„	10 9 6
	Total Rs.		90 13 0

FINES.

1. The receipts under this head amounted to Rs. 4,658-0-6, which is less than last year by Rs. 2,705-1-9.

REGISTRATION.

1. The system of Registration of documents, introduced some time ago, is working satisfactorily. The receipts from this source have been less than last year by Rs. 381-8-0.

STAMPS

1. The receipts from sale of Stamp Papers during the year ending 31st March 1898, amounted to Rs. 9,447-14-0, which is less than last year by Rs. 1,849-9-6.

QUARRIES.

1. The working of the Dholpur Sandtone Quarries is carried on as usual.

The value of stone sold during the year amounts to Rs. 17,892-4-9, which is less than last year by Rs. 1,107-11-3.

The opening of competitive stone quarries in the Bhurtpur and Gwalior States is now telling seriously on the income of this quarry. Purchasers of stone finding it less expensive to carry stone from those quarries do not send orders here.

The total working expenses amounted to Rs. 10,269-11-6, so that the profits during the year were Rs. 7,622-9-3. This exceeds last year's profits by Rs. 91-9-3.

TACCAVI ADVANCES.

In 1892 His Highness the Maharaj Rana paid Rs. 59,137-7-3 for payment of Taccavi to cultivators. This is given at a low rate of interest and has been a great help to them.

The receipts on account of interest, etc., of these advances from the date they were started to 31st March 1898, have been Rs. 30,797-4-3.

2. The Taccavi given for Sugarcane seeds and for the Kharif and Rabi crops is realised within one year. On account of scarcity this could not be done last year, in which, as shown in the statement appended with last year's report, the sum of Rs. 45,877-13-6 remained due up to 31st March 1897. Of this Rs. 25,922-6-3 have been realised during the current year, and Rs. 19,955-7-3 still remains due.

Including this sum the total amount due on 31st March 1898 amounts to Rs. 44,479-14-9.

Taccavi for construction of irrigation wells is given at a higher rate of interest than the above, and is realised by instalments in three years.

The Taccavi due in this account on 31st March 1898 amounts to Rs. 7,328-1-0.

SETTLEMENT.

1. The procedure of examining and recording the crops was continued like last year.

The crops were recorded by the Patwaries and supervised by the Tehsildars, the Canoongoes and the Chowdries. The whole was then subsequently examined by the Munserims.

This procedure has been of very great service to the Durbar. It has given an insight into the actual condition of both the Rabi and Kharif crops, and has thereby enabled the Durbar to ascertain the amount of Revenue that could fairly be collected.

The comparative Statement given below will show the result of the procedure for the last three years :—

Name of Crop.	Area cultivated in 1895-96.			Area cultivated in 1896-97.			Area cultivated in 1897-98.		
	Big.			Big.			Big.		
Kharif	3,29,602	4	10	3,42,814	12	10	3,16,212	6	0
Rabi	1,16,816	16	0	56,142	14	12	28,753	19	12

SIRMATHRA ESTATE.

1. This Taluka has remained under the direct management of the Durbar as before.

The officer appointed by the Durbar to look to the finances and expenses of the Taluka still holds charge, and the general management continues well.

2. The rainfall in the Taluka during the year has been good and opportune, and the production of both the Rabi and Kharif crops has been splendid.

The production of grass and fodder was also good.

3. The price of grain continued high for most part of the year, which was a great help to cultivators and to all the land-holding classes of the Taluka in general.

4. By the end of the financial year about Rs. 13,000 will be repaid towards liquidation of debts, and the entire liability of the Estate will then amount to Rs. 47,950 only.

CONSERVANCY.

1. No changes have been made in this department.

The conservancy of the town and its environs has been properly looked after under the supervision of the city Police Inspector and the Police Constables by two Conservancy Jamadars and 14 sweepers.

The expenses of this department are about Rs. 600 per annum.

SCHOOLS.

1. There are six schools in the State, in all of which preliminary education is given.

2. English education is given in the Sadder School at Dholpur only. Education is imparted gratis. Fee is not taken.

3. The average attendance of students last year was 372, whereas the average for the current year is 366 only.

The small decrease is due to the prevalence of malarious fever and other desease for the greater portion of the year.

4. The expenses of all the schools have been the same as last year, *viz.* Rs. 2,307-0-0.

The average annual expenditure per student is Rs. 6-4-10.

STATE PRESS.

1. No changes have been made in this department during the year.

Stamps, account forms and other papers required for State purposes have continued to be lithographed here, and the general management of the press under the supervision of Babu Jadub Chandra Ghose has been satisfactory.

2. The profits from State Press for the year have been Rs. 2,000.

PUBLIC WORKS.

1. New works have not been taken up. Repair of old houses and Roads found to be indispensibly necessary were made.

It has been proposed that an Engineer be entertained exclusively for State Public Works and for completion of such of the Reproductive Public Works as were commenced last year.

SOCIAL REFORM.

1. The local Walter Kirt Rajputra Hit Karini Sabha, which was established in Dholpur five years ago, was held as usual.

A representative from the Dholpur Durbar was also sent to Ajmere to discuss matters in the General Meeting held there on the 26th of March 1898.

2. The rules laid down for regulating the expenses on marriages and funeral feasts among the agricultural and artisan classes of the Dholpur State have worked satisfactorily.

There were in all 22 marriages and 76 funeral feasts here, in all of which the parties concerned acted according to the rules, and celebrated their feasts on the lowest scale sanctioned.

Reports of people deviating from the rules have not been received.

BISHUN SAROOP,
RAI BAHADUR,
Diwan, Dholpur State.
